## Education Workshops 2025/26

***With a national reputation for creating wholly original, imagination-defying, ground-breaking work, this Tony Award-winning company introduces your students to its ensemble of artists through custom workshops.***

## **See a Show**

Bring your students to Lookingglass to see a spectacular show, participate in a workshop, or tour our historic home, the Water Tower Water Works. All field trips include an activity guide and post-show discussion.

## **Custom Workshops**

Three strands of programming are available for custom workshops: SPARK, IGNITE, and ACTIVATE. Workshop partners also receive behind-the-scenes access to our performances when we are producing a show.

## **Educator Trainings**

Add a professional development workshop for the educators in your group.

## **Stream LOOKINGGLASS ALICE**

Join over 2 million viewers and bring our exhilarating acrobatic adaptation of “Alice In Wonderland” into your classroom using the PBS Passport app. Visit our website to access the official study guide.

# Custom Workshops 2025-2026

## Option 1. SPARK CURIOSITY: Ensemble

Spark curiosity in an ensemble-building workshop that will nurture community, build empathy, and strengthen your artistic ensemble. Explore Lookingglass techniques, games, and activities. Gain foundational skills in “Yes, And...” thinking, collaboration, and improvisation.

## Option 2. IGNITE CREATIVITY: Devise

Ignite creativity in a workshop where participants build their own original stories and performances. Participants will take inspiration from life, art, and each other while learning Lookingglass techniques for making your very own “world premiere.” Already got an idea? Bring your own story-starter and let Lookingglass help you turn that idea into performance. Need an idea? Let’s ignite your creativity!

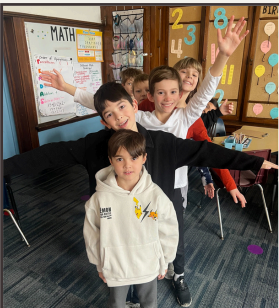

## Option 3. ACTIVATE STORYTELLING: Physical Storytelling

Activate storytelling in a workshop that will introduce participants to an actor’s toolkit! Increase body awareness and confidence, learn how your body can build character and tell a story, and choose one focus area for exploration: ensemble movement, puppetry, clowning, or mask. This workshop is fully accessible – all are welcome and no prior experience in theatre movement is needed.

**Booking Information:** Lookingglass workshops range from one 2-hour session to multiple sessions over a series of weeks and are priced accordingly. Onsite, offsite, and virtual workshops are available. The workshops above may be further customized to best support the needs and interests of your group.

**“Our teaching artist was excellent, and I would love to work with her again. She was easy to collaborate with, and I really admired the way she allows students to express themselves without judgment.”**

**Mary Fessler, Bell School, 2025**
